

Naturally Nova Scotia Announces Non-Green Superfood that is Naturally Delicious

April 28, 2009

(Lawrencetown, NS) – Naturally Nova Scotia (NNS), Canada's leading manufacturer and distributor of certified organic, whole food health products, is announcing their new superfood formula that isn't green and tastes delicious naturally; without added sugars, sweeteners, or flavors.

Delectable and deeply nourishing, MultiVitale Blend is an all new non-green superfood option. Certified organic, alkaline, and bursting with pre/probiotic factors, MultiVitale Blend is a whole food superfood drink for the whole family. A non-dairy drink mix of three strains of probiotics co-blending with inulin (prebiotic) to nourish these probiotics. Fermented soy, sprouts of spelt and wheat, and many nutritious fruits & vegetables make this formulation a balanced low-fat supplement.

MultiVitale Blend is a great natural source of Vitamin B12 (70% Daily Value, DV), Folic Acid (60.5% DV), as well as Vitamin B1 and Vitamin C (36% and 23.8% DV respectively). Additionally, MultiVitale Blend contains vital nutrients for fast-growing cell systems such as skin, hair, and nails. The skin in particular benefits from the support of the intestinal flora by the probiotic lactobacillus bacteria. The interaction between pre and probiotics as well as enzymatic activity from sprouts, free amino acids from fermented soy, and vital plant materials creates a symbiotic effect to regulate digestion, boost immunity, balance pH, and harmonize the intestinal flora.

NNS, founded in 1994, has since grown to include a 30,000 sq. foot manufacturing facility on a 250 acre organic farm employing more than 30 people. Organic is a growing and processing method that helps protect the health of people, plants, animals, and the environment. NNS facilities are site licensed by the Natural Health Products Directorate (NHPD) in Canada and are GMP (Good Manufacturing Practices) compliant. The company also manufactures other certified organic whole food products such as Vitamin D₃, as well as a line of herbal tinctures and capsules. Please visit the NNS website for more inquiries or to place an order: www.naturallynovascotia.com
